

Thai Animal Sanctuary

Senior Resident Vet - Paid Volunteer Position

An exciting opportunity exists for an experienced vet in a remote community in Thailand. The town of Sangkhlaburi lies within the Kanchanaburi province, approximately 7 hours drive from Bangkok- situated on the Burmese border, this picturesque town is surrounded by stunning mountains, national parks, waterfalls and rivers. With a Thai, Burmese, Karen and Mon population the rich cultural diversity and scenic backdrop are what make this town unique.

Established in 2007, Thai Animal Sanctuary has slowly grown over the years and is now home to about 35 resident dogs. Spurred on by the plight of the animals in the area and aware of the lack of veterinary care within the local communities, we were finally able to open the doors to our very own veterinary clinic in 2012, and remain the only veterinary clinic/shelter for more than 200km (4 hours drive). We see all manner of ailments – from regular fleas & ticks, to scabies, distemper, parvovirus and other diseases and infections, as well as quite a high number of human inflicted injuries (ranging from machete wounds to car and motorbike accidents).

For the most part we deal with dogs and cats, but as the only safe haven and veterinary centre in the area all other domestic or wild animals are welcome. As well as being open to the public 7 days a week, we strive to run regular sterilisation and vaccination projects in order to humanely manage the stray animal population, and are constantly working to improve the health and wellbeing of both animals

At Thai Animal Sanctuary you will work with a small but passionate team to improve the health and well-being of all animals in Sangkhlaburi and the surrounding area. We currently have two permanent staff members, our sanctuary and volunteer program manager Denise, and our sanctuary supervisor Song. General sanctuary work is carried out by our amazing volunteers, We are looking for a skilled vet who is flexible and adaptable, with sound analytical skills to tackle the challenges that this role presents. Your sense of humour will also assist with this! In return, this opportunity will offer you hands-on experience in a challenging yet extremely rewarding role. As well as interesting cases that you may not see as frequently in the western world, and the chance to meet fascinating and like-minded people from all over the world, you will be able to see the direct impact that your work has on the lives of animals and humans in our community.

Due to the nature of the injuries we often see, we are only accepting applications from veterinarians that are comfortable and competent in veterinary surgery.
